Nexus Liquid

NexusBioAg

Guaranteed Minimum Analysis

 Sulphur (S)
 3.4%

 Zinc (Zn) (Actual)
 7.0%

Ingredients: lignosulfonate, zinc sulphate.

Registration Number: 2005092B Fertilizers Act

CAUTION: This fertilizer contains zinc and should be used only as recommended. It may prove harmful when misused.

WARNING: Causes serious eye irritation. May be harmful if swallowed.

Precautionary Statements: Wear eye/face protection. Wash thoroughly after handling. Avoid release to the environment. Collect spillage. First Aid: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. Call a doctor if you feel unwell. Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Do not freeze. Dispose of contents/container in accordance with local regulations.

DIRECTIONS FOR USE: Actively growing plants with young leaves absorb foliarly applied NEXUS LIQUID ZINC 7% most efficiently. Immediate post-irrigation or post-rainfall application give the best foliar uptake. COMPATIBILITY: NEXUS LIQUID ZINC 7% is compatible with most pesticides and fertilizers. However, if the desired combination has not been previously used, a compatibility test is recommended. If tank mixing, add components in this order: Water, Ag chemical, Nexus Liquid Zinc 7%. MIXING: Shake, stir, or swirl contents before using. Always add this product to the spray tank before adding pesticides. FOLIAR APPLICATIONS FOR ALL CROPS: Applications should be separated by a minimum of 7-14 days. Avoid foliar applications of this product when plants are under moisture stress. Avoid foliar applications to deciduous tree crops during bloom. Concentrate Applications: Use up to 2 liter of NEXUS LIQUID ZINC 7% in a minimum of 100 liters of water per acre. Aerial Applications: Up to 1 liter of NEXUS LIQUID ZINC 7% per 20 liters of spray may be used, but more dilute solutions will improve coverage and results.

For more information on use of this product, please contact a professional agricultural consultant. This product should be used on the basis of a soil and/or tissue analysis.

CONDITIONS OF SALE AND WARRANTY: Univar Solutions Canada Ltd. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Univar Solutions Canada Ltd. and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling and use of this material not in strict accordance with directions given herewith. In no case shall Univar Solutions Canada Ltd. or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Univar Solutions Canada Ltd. and is accepted as such by the Buyer.
