

Nitrogen Stabilizer

Formulated for nitrogen applications where leaching is the primary concern. Protects against surface losses for a short time.

Active Ingredients

- NBPT 5%
- DCD 30%

Protection From:

- Volatilization
- Denitrification
- Leaching

Features:

- Protection of nitrogen from potential losses.
- Helps to create an efficient nitrogen source for all crops.
- Added to UAN to become a homogeneous liquid solution.
- Added to UREA to evenly coat and penetrate each granule to the core.
- Used with early spring and fall applications of UREA or UAN.

NEON SOIL Rates

FERTILIZER	LITRES/TONNE
Urea	4
UAN	2

Agronomic Considerations

NEON SOIL nitrogen stabilizer with PENXCEL™ technology is a uniquely formulated fertilizer additive for urea and urea ammonium nitrate (UAN) fertilizers. NEON SOIL represents a family of products that combine two high concentrated actives for triple action control of nitrogen losses.
